In Mexico since 1971

October 2020

PRAISE THE LORD! Pastor Manuel and Tina were successful in returning to Acuna. They were here for four days and we were able to have bible study every day. We have been successful in getting Sunday school started at light house Baptist church in Acuna started. We have discussed what's going to have to be done to get our churches back up and running to normal. We have been told by the Mexican government that no restrictions will be lifted until January 2021, even if then.

I will mention the Christmas offering for the children's home this month and November, you have always been generous with our ministry this time of year, and I know this year will be no different.

The days of barbies, baby dolls, and cars and trucks has passed. The children have asked for 6 tablets and one laptop for Christmas. These are items that are demanded by the school and are not provided by the Mexican school system. Also, they have requested new clothes and shoes. We have one in college and the rest are in third grade through high school. All our kids are straight A students. Danny, our eleven-year-old is used as a visiting professor at the end of each semester. He spends two weeks, at the end of each semester helping other students get their homework up to date and tutoring them for final exams.

Thank you for hanging in there with us and for your prayerful and financial support.

For Souls in Mexico
