

Holiday Greetings From Will & Dorothy Rogers

December 2nd, 2021

It is a new experience for us to be part of an isolated small town during the holiday season, a new experience and a very enjoyable one. It is just very different. Everybody knows everybody, it seems, and community events draw the attention of the whole town. For example, we are looking forward to the celebration when the town will light the community Christmas tree. The whole town is expected to come out to see it. We met another newcomer to town who referred to Wrangell as 'Mayberry, RFD, North' (if you younger folks don't recognize that reference, google it).

We are here to teach the Word and minister encouragement to the church, and in that regard things seem to be going very well. The people have opened their hearts to us and there is a great spirit of cooperation. God has also sent some new folks to the church, including a lady we met while out walking who told us, "I really need the Lord!" She left after the first Sunday with tears in her eyes and returned the next week with her husband.

The arrival of the holiday season means that we are approaching the end of another year of serving the Lord together. We are thankful for the opportunity to provide this coverage for the ministry of **Doug & Nedra Shultz** and we could not do it apart from your faithfulness. Thank you for praying for us. Thank you for faithfully supporting us.

As you gather in your own 'community' this month, whether it be in your family or in your church, may you experience the true joy of the Lord and the working of the Holy Spirit. May your hearts be strong and encouraged, especially in remembering that the whole community of believers will soon be gathering around our God in Heaven.

Merry Christmas & Happy New Year!

Will & Dorothy
